

## 12 INCH PASSIVE RADIATOR

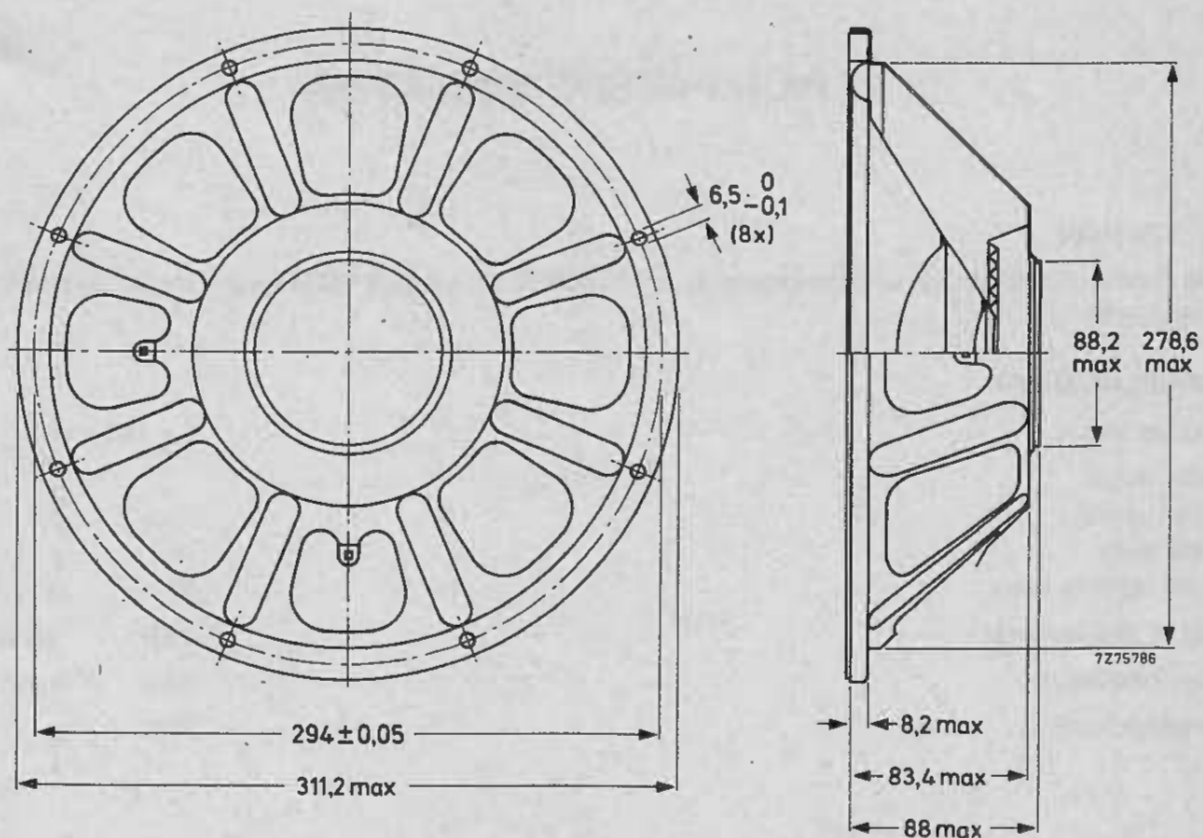

## APPLICATION

To be used in combination with loudspeaker AD12200/W. in a sealed 100 l enclosure for an improved bass response.

## TECHNICAL DATA

|                       |                                |
|-----------------------|--------------------------------|
| Effective area        | $5 \times 10^{-2} \text{ m}^2$ |
| Moving mass:          |                                |
| tuned mass            | 21,5 g                         |
| cone mass             | 15 g                           |
| total moving mass     | 49 g                           |
| Speed of displacement | 100 mm/s                       |
| Static compliance     | 2,55 mm/N                      |
| Mass of radiator      | 710 g                          |

## CATALOGUE NUMBER

2422 259 120.1

0 = stamped on radiator  
not to be used for ordering

2 = for bulk packing \*

6 = for single unit packing

\* Minimum packing quantity 1 per unit.
